John visits the doctor's clinic because he is sick. Read what John and the doctor say and answer the questions on the next page.

1 **John:** Good morning, Doctor Chu. I feel sick.

**Doctor:** Good morning, John. What's wrong?

**John:** My **throat** is very **sore**. I can't eat.

5 **Doctor:** Let me see. Please open your mouth and say 'aargh'.

**John:** Aargh ...

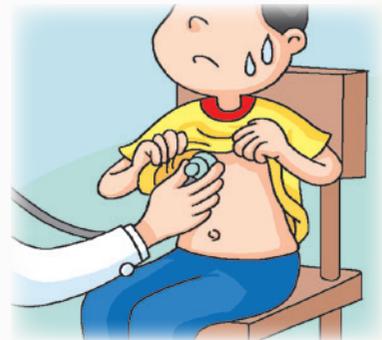

**Doctor:** Yes, your throat is very red. Is anything else wrong?

**John:** My nose is always runny and I have a bad **cough**.

**Doctor:** I'll listen to your **chest**. Hmm. It sounds OK.

10 **John:** Can I go to school?

**Doctor:** You have a cold. You should stay at home for two days. I'll give you some **medicine** to take three times a day — morning, lunchtime and bedtime.

15 **John:** But I have an English test tomorrow.

**Doctor:** You need to stay home and rest. Don't worry about the test. Drink a lot of water and get a lot of sleep.

**John:** OK.

20 **Doctor:** Get well soon, John. Be **healthy**!

**John:** Thank you, Doctor Chu.

New word(s)

chest, cough, healthy, medicine, sore, throat

Listen!

Danny is reading about potato chips. Look at the diagram and answer the questions on the next page.

## Potato chips

A bag of potato chips can feel like a little balloon. This is because there is nitrogen gas inside.

The gas inside helps keep the potato chips fresh and it protects the chips from breaking easily. It is like a cushion.

Chips can be cut in straight or crinkled slices. Crinkle-cut chips are four times thicker than a straight chip.

Since 1967 you can buy chips in a can. Chips do not break so much if they are in a can, and there is no need to put nitrogen inside.

Date: \_\_\_\_\_

Danny is telling his friends about what he learned about potato chips. Circle the correct answers.

Hey, guys! I learned something interesting about potato chips today. Did you know that ?

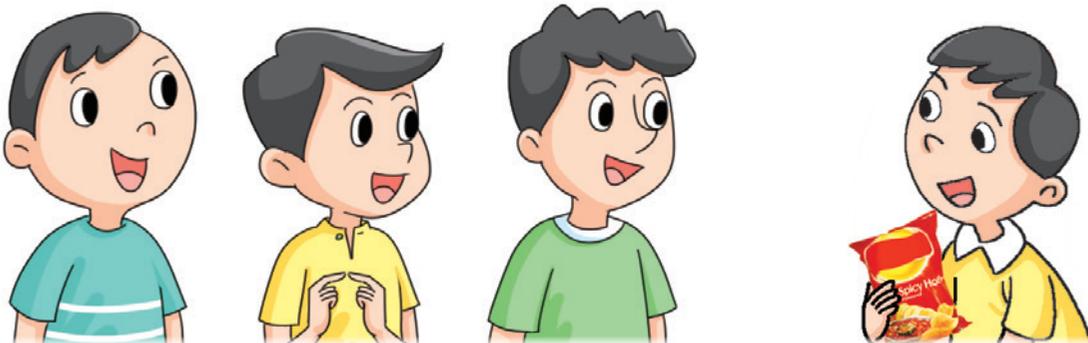

When potato chips come in a bag, there is  
1 nitrogen / air inside.

The gas keeps the chips 2 clean / fresh .

It also stops the chips from 3 melting / breaking .

Crinkle-cut chips are 4 thinner / thicker and  
5 stronger / weaker .

A can helps keep the chips 6 fresh / unbroken .
